

Bachelor of Science in **DIAGNOSTIC MEDICAL SONOGRAPHY COMPLETION PROGRAM**

**Created for working adults to earn
their degree in a convenient, flexible way**

**Complement your diagnostic imaging clinical
background through this 100% online program
designed to fit the lifestyles of working
medical sonographers.**

Featuring coursework designed to be interactive with faculty and peers, graduates will experience advantages in the field, having spent time practicing and studying multiple specialties.

Our program offers:

- **A 10% discount to Wisconsin Technical College students/graduates**
- **100% online, 7-week classes**
- **Six entry points each year**

- **Only one course required per term**
- **A variety of minor options to tailor the degree to your career**
- **Learning based on real-world applications**

You'll graduate faster by receiving 60 credit hours with your certification from the American Registry of Diagnostic Medical Sonography or Cardiovascular Credentialing International.

The education you want, when you want it

We offer a rolling admission with six different start dates throughout the year — January, March, May, July, August, and October. We accept a maximum of 90 transfer credits and, depending on the number of transfer credits accepted, you could graduate in just 15 months.

You're qualified for the program if you can say...

- I'm already an ultrasound tech/sonographer
- I've completed all my clinical training through an associate degree or technical program
- I'm credentialed through either ARDMS or CCI
- I'm close to becoming credentialed and want to explore this program

Don't meet the criteria? Our on-campus BS in Diagnostic Medical Sonography program will allow you to become an ultrasound tech in 4 years. If you'd prefer to study online, we suggest either the BS in Health Care Administration or the BS in Interdisciplinary Studies. With our generous transfer credit policy, you may be closer to a degree than you think.
